PROFILE

MSc graduate in Engineering and Management of Information Systems with practical experience in data integration, transformation, and visualization. Familiar with tools such as Python, SQL, Apache NiFi, and Power BI, and comfortable working with data to support analysis and decision-making. Eager to grow in data-driven environments and contribute with a solid technical foundation and willingness to learn.

PROFESSIONAL INTEREST

- Data Engineering
- Data Analyst

SKILLS

TECHNICAL SKILLS

- **Programming & Data:** Python (Pandas), SQL (MySQL, IBM db2)
- **Data Engineering & ETL:** Apache NiFi (professional context); Talend · Airflow · Databricks (academic context)
- **BI & Visualization:** Power BI, Superset, Tableau, IBM Cognos, Grafana

SOFT SKILLS

- Soft Skills: Teamwork · Responsibility · Persistence · Problem-solving · Resilience · Adaptability

LANGUAGES

- Portuguese (native)
- English
- French

WORK EXPERIENCE

Junior Data Analyst | Jan 2025 – Present

CCG/ZGDV - ICT Innovation Institute

- **Developed and automated ETL pipelines** using Python and Apache NiFi for data ingestion, transformation and validation in an industrial context;
- **Designed and developed a Data Warehouse** using MySQL, applying multidimensional modeling (star schema) and creating analytical views to support reporting and visualization;
- Built **interactive dashboards** using Power BI and Apache Superset to monitor industrial KPIs and operational performance;
- Developed a **synthetic urban mobility data generator** based on real STCP datasets and designed a domain ontology and knowledge graph, enabling semantic data integration and advanced analysis of the impact of external factors (e.g. weather and public events) on mobility patterns and system performance, using Neo4j.

EDUCATION

MSc in Engineering and Management of Information Systems

University of Minho 2018-2024

- Conducted dissertation titled "IT Services, Business Models and Digital Marketplace for the eHealth Domain: The Services of the CCG/ZGDV Institute", as part of the national mobilizing agenda "Health From Portugal";
- Designed and implemented ETL processes using Talend Open Studio to structure raw data and build a data warehouse, and developed interactive KPI dashboards in Tableau to support decision-making;
- Created a machine learning model using the CRISP-DM methodology to predict loan default risks, applying Python (Pandas, NumPy, Matplotlib) for data analysis;
- Built a simulation model in SIMIO to optimize restaurant operations and address real-world inefficiencies.

CERTIFICATIONS

- **SQL, ETL and BI Fundamentals - IBM (2025)**
 - Introduction to SQL - IBM (2025)
 - Linux Commands & Shell Scripting - IBM (2025)
 - ETL and Data Pipelines with Bash, Airflow and Kafka - IBM (2025)
 - Data Warehousing and BI Analytics - IBM (2025)
- **SQL from basic to advanced (with MySQL and Project) - Udemy (2024)**
- **Power BI Complete - From Basic to Advanced - Udemy (2024)**
- **ERPsim Game EMEA South with an SAP S/4HANA system - SAP Next-Gen (2021)**
